

## NASCAR

By: Daron Blanche

NASCAR involves driving in an oval motion. NASCAR means (National Association for Stock Car Auto Racing). Back in 1948, The sport of NASCAR was created. In NASCAR cars are made with a plastic body. The cars are made with air flaps to keep the car on the Ground.

One of the racers known as THE KING has had over 200 wins. THE KING'S actual name is Richard Petty. There are other racers that are still pretty well known. On the cars there are stickers called SPONSORS they help support the team. In NASCAR the cars can be different, the body's are all made plastic, But the colors and engine can be different. There are different types of people in the pit crew members that are part of one's team. There is the wheel changer, the gas filler and the person that checks if everything on the car is Okay. The pit crew is a team and they work together to help win the race. The top winner with the most amount of cash.

## How to Be an Actor

By Kaylee Rosales

To become an actress first you'll need to take acting classes to learn more about acting, once you're done with that, you can start to apply for auditions. In acting classes, you can learn different methods of acting. It is very important to learn how to communicate with different people and how to communicate using your body language. A large number of colleges offer acting classes and degrees in the performing arts. The world of acting is large and diverse, and so are the educational backgrounds of those who are in it.

An actor plays a role in a variety of entertaining mediums, including theater, television, movies, live performances, radio and more but their work is for entertainment, but often also for information or information. Many actors are versatile in their talents and can , dancing, writing and even directing are added to their list of talents.

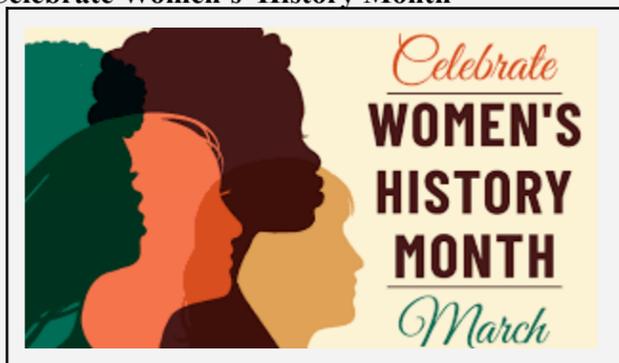

It is a very hard field to be accomplished and recognized for your talents, therefore, continue going on auditions and working as much as possible in the acting world. Acting workshops and small theater companies keep performing in top form by providing an environment in which they can stretch their creative muscles and practice their craft. They also provide one of the most effective networking opportunities available. Join a theater team, continue networking. It can take years to get the big break, but it is possible for some actors to receive a steady stream of work.

## The Big Bang Theory

By Isabella Meneses

The Big Bang Theory is one of the many theories for the existence of our universe. According to this theory the Universe expanded from an extremely small, hot, and dense state. It was like an explosion that started it all. It is explained through thresholds. The thresholds all

## Let's Celebrate Women's History Month

### Ruth Bader Ginsburg, Associate Justice of the Supreme Court

Ruth Bader Ginsburg, Associate Justice, was born in Brooklyn, New York, March 15, 1933. She married Martin D. Ginsburg in 1954, and has a daughter, Jane, and a son, James. She received her B.A. from Cornell University, attended Harvard Law School, and received her LL.B. from Columbia Law School. She served as a law clerk to the Honorable Edmund L. Palmieri, Judge of the United States District Court for the Southern District of New York, from 1959–1961. From 1961–1963, she was a research associate and then associate director of the Columbia Law School Project on International Procedure. She was a Professor of Law at Rutgers University School of Law from 1963–1972, and Columbia Law School from 1972–1980, and a fellow at the Center for Advanced Study in the Behavioral Sciences in Stanford, California from 1977–1978. In 1971, she co-founded the Women's Rights Project of the American Civil Liberties Union, and served as the ACLU's General Counsel from 1973–1980, and on the National Board of Directors from 1974–1980. She served on the Board and Executive Committee of the American Bar Foundation from 1979-1989, on the Board of Editors of the American Bar Association Journal from 1972-1978, and on the Council of the American Law Institute from 1978-1993. She was appointed a Judge of the United States Court of Appeals for the District of Columbia Circuit in 1980. President Clinton nominated her as an Associate Justice of the Supreme Court, and she took her seat August 10, 1993. Justice Ginsburg died on September 18, 2020.

### Mary Winston Jackson "Human Computer"

Mary Winston Jackson was born on April 9, 1921, in Hampton, Virginia, the daughter of Ella and Frank Winston. She attended Hampton's all-Black schools and graduated with high honors from George P. Phenix Training School in 1937. Five years later, she earned dual bachelor's degrees in mathematics and physical science from Hampton Institute. Mathematician Mary Winston Jackson excelled academically in a time of racial segregation. Her math and science skills earned her a position as a "human computer" for NACA, and she later became NASA's first Black female engineer. Along with serving a vital role in the development of the space program, she helped other women and minorities advance

## National Basketball Association

By: Jayden Rosales

The National Basketball Association, or NBA, is a professional basketball league of 30 teams across North America featuring the best basketball players in the world.

In the Northwest the teams are: Denver Nuggets, Minnesota Timberwolves, Oklahoma City Thunder, Portland Trail Blazers, Utah Jazz. Pacific: Golden State Warriors, L.A. Clippers, Los Angeles Lakers, Phoenix Suns, Sacramento Kings and many more.

Speaking about the Los Angeles Lakers LeBron James set the new world record for the most career points passing Kareem at 38,450. Also some of the best players to exist are LeBron James, Michael Jordan, Bill Russel, Kareem Abdul-Jabbar, Wilt Chamberlain, Kobe Bryant, Magic Johnson, Larry Bird, Allen Iverson, Kevin Durant, Tim Duncan and David Robinson. In 2022, the league announced its 75th Anniversary Team.

In the NBA they host an all star game every year this year it was Team Giannis vs Team LeBron. The winning team was Team Giannis the score turned out to be 184-175.

## St. Patrick's Day

By: Mikell Lawler

St. Patrick's day is an anniversary of the day of St. Patrick's death which is on March 17 465 AD. The Irish holiday starts during the Christian season of Lent, which is a period of 40 days of prayer, fasting, and almsgiving. St. Patrick's day is an Irish holiday that has been celebrated for over a thousand years. It is most commonly celebrated by going to the church in the morning and feasting in the afternoon. During the Lent season you can't eat meat on St. On Patrick's Day, people would eat vegetarian foods on their feasts.

St. Patrick was born on March 17 in 386 AD, he was born in Britain when it was under Roman control. Saint Patrick was a slave when he first got to Ireland in the 15th century but escaped but later returned to Ireland. Saint Patrick was an important figure to Ireland for bringing Christianity to Ireland. The most well-known legend surrounding St. Patrick used a shamrock (an Irish clover) to explain the Holy Trinity.

St. Patrick's day was first celebrated in America rather than in Ireland. The first

explain a section of how society became what it is now.

Thresholds one through four are what started it all. They are what explains the foundations of the universe. Threshold one is the Big Bang, it explains the event and how it happened. Threshold two is how the stars light up, it explains how stars were created and how they die. Threshold three is new chemical elements. This threshold explains how all our elements came to be and how they combined to create new substances. Threshold four is Earth and the solar system, it gives us an explanation of how our planets came to be.

Thresholds five through eight are the explanation of our evolution over time. Threshold five is life on earth, it explains the first forms of life on earth. Threshold six is collective learning, it shows us how humans learned from each other to evolve. Threshold seven is agriculture, this threshold shows how civilizations came to be and how they grew their own food. Threshold eight is the last threshold, it explains why and how society came to be like this. It explains the urbanization of towns and countries.

Whether you believe in this theory or not, it is one of the most well built theories for the existence of our universe. It is a truly interesting subject and should be studied more. Some scientists are working to try and prove this theory.

## Space Exploration

By: Giovanni M

The first step of humanity's space race was the Soviet Union who launched the first satellite to space. This happened during the Cold War when they were trying to develop missiles. Sergei Korolev is the man who would start the space race with the R7 rocket.

The Sputnik was the first ever satellite in space; it was placed on top of the R7 rocket. The Sputnik could send beeps to communicate. It orbited the earth in 96 minutes. This exceeds American technology and possibly endangers them. The rocket designer Sergei Korolev had developed a rocket, which would begin the space race.

Later in the space race, JFK announced that we are going to put a man on the moon, but he would later die before he could see it happen. Neil Armstrong was the first man on the moon with the famous quote "One small step for man, and one giant leap for mankind." After this the space race ended with the U.S.S.R being the first in space and the Americans being the first on the moon

their careers. Jackson died in February 2005 at the age of 83. The story of her groundbreaking contributions to NASA was later dramatized in the 2016 film *Hidden Figures*.

## Amelia Earhart

Amelia Earhart was born on July 24, 1897, in Atchison, Kansas. Earhart spent much of her early childhood in the upper-middle-class household of her maternal grandparents. Earhart's mother, Amelia "Amy" Otis, married a man who showed much promise but was never able to break the bonds of alcohol. Edwin Earhart was on a constant search to establish his career and put the family on a firm financial foundation. When the situation got bad, Amy would shuttle Earhart and her sister Muriel to their grandparents' home. There they sought out adventures, exploring the neighborhood, climbing trees, hunting for rats and taking breathtaking rides on Earhart's sled.

Amelia Earhart, fondly known as "Lady Lindy," was an American aviator who mysteriously disappeared in 1937 while trying to circumnavigate the globe from the equator. Earhart was the 16th woman to be issued a pilot's license. She had several notable flights, including becoming the first woman to fly across the Atlantic Ocean in 1928, as well as the first person to fly over both the Atlantic and Pacific. Earhart was legally declared dead in 1939.

## Frito Lay Corporation

By: Jesus V.

Herman Lay was the founder of The Frito-Lay Company. This company owned by Pepsico has made many snacks such as Doritos, Cheetos, SunChips, and many more. Frito-Lay was established in September 1961.

Frito-Lay started out as normal homemade chips made by Charles Elmer Doolin with only a hundred dollars to start off.

celebration of St. Patrick was in a Spanish colony run by Ricardo Artur which is now St. Augustine, Florida. A century later it was celebrated in New York City in 1772 when Irish soldiers marched in honor of St. Patrick. Over time, America's love for the Saint as more and more immigrants took part in the celebrations of St. Patrick. In recent times, people celebrate the Irish holiday by wearing green, eat meals associated with the holiday, and parade in honor of St. Patrick.

## Volleyball

By: Lilly Chavarria

### Chicago vs New Jersey volleyball

New Jersey team Freedom defeated the Chicago Untouchables 3-0, 25-19 and many more. For Chicago parasite is proving to be a massive asset for the untouchables as he has his team on the offensive. Outside hitter Ian Capp added pts ( 9 kills and 2 blocks ) for the Tornados in the victory that helped to hold back the untouched opposite.

The Untouched couldn't match team freedom's offensive output, with Chicago only having 42 attack attempts compared to freedom of 83. The increased chances of the score led to New Jersey having more than double the amount of the earned points, with 54 total points compared to Chicago's 21.

Even more impressive was freedom ability to slide out on serve receive at a whopping 39% slide out ratio. Even with more cumulative errors as a team, 25 to 21 team freedom successfully put the untouchable out of system.

## Terraria Game Review

By: Jose Cabanillas

Terraria is a 2D adventure game where you can build, craft and fight and you can kill bosses, mobs, you can build farms, build items and build bases and you can do NPC's quests to earn rewards. You can play Terraria on PC, Xbox, PlayStation, Nintendo Switch, iOS, and Android devices and 12 and older can play terraria because it contains Alcohol Reference, Blood and Gore, Cartoon Violence.

To beat the game terraria you need to fight the last boss in the game called moonlord which is a hard boss to beat before you can fight him you need to Summon four pillars that you how to kill

## Being a Cheerleader

By: Erika Beltran Alcantar

My name is Erika Beltran, this is my experience with cheer at Cordova. When I first found out I got on the cheer team, I was excited! I didn't think that we would have to compete with other schools. After school we would practice. I won't say it was easy because it wasn't. We would have to learn the lyrics of the cheer and the dance while yelling at the top of our lungs. Something that I struggled with was doing my kicks. We would have to do two kicks and it was hard for me. I'm not flexible but the more time I practiced the better I got. During practice I would get frustrated because everyone would do good while I continued to have trouble with the dance. We learned nine cheers and we did a dance and a cheer/dance combined, we had to learn it all before the competition.

I remember our first game, we were cheering for the boy's basketball team. I was a bit nervous because I felt like I would mess up on one of the moves, but I did well and I was loud as I performed it. We cheered at a total of twelve games and we would do a dance performance during halftime. The halftime performance was when I would get the most nervous. I invited my family and some friends to go and watch the game while we cheered for the boys. My throat was hurting but it was fun yelling. The crowd would cheer while the boy's basketball team would make points. I did my kicks and yelled like I was supposed to. We did our show and it all went well. It ended at 7pm and we were proud of the boys basketball team and all their accomplishments.

Now comes the cheer competition; the day of the competition I woke up at 5am because the competition starts at 7am. I showered, put my hair in a high ponytail, did a skincare routine, changed into my uniform, ate breakfast, and put on my makeup. I arrived at the school to ride the bus that would take us to our competition. During the bus ride, I was so scared that I was shaking and sweating. I was only thinking the worst! We arrived at the competition held at Carol G Peck Elementary School and when I saw all the schools there, I instantly got nervous as I was watching their dances; they were all very good and loud. While they announced the winners I prayed, and I was actually

Doolin bought many items to make these chips and thus began The Frito Company.

The company wasn't doing great. Doolin would profit 2 dollars a day and would sell the chips for 30 cents a piece. The Frito Company also moved to Dallas where its main HQ would stay. They would also use the hammer press, which would help them a lot.

In 1931, Herman Lay was also a big player in the chip company. In 1932, he made his own potato chip company, Making H.W. Lay and Company. In 1961, The two companies merged to make Frito-Lay and go on to make many snacks. Herman Lay was the founder of The Frito-Lay Company. This company owned by Pepsico has made many snacks such as Doritos, Cheetos, SunChips, and many more. Frito-Lay was created in September 1961

## How to Become a Singer

By: Jennifer Roman

Step 1 for if you want to become a famous songwriter you need to let your talents take you wherever it takes you. Let someone give you inspiration and let them give you corrections so you can fix what you have been doing wrong. Step 2 is to make a songwriting book which you can use for all the ideas, lyrics and musical ideas that you have. Don't back out what you're writing down just go with it and have faith in yourself and the lyrics you're writing down. For step 3 work on the title first or at least a good theme for the song. Then start on planning the lyrical direction and know where you're going with it. Step 4 is play around with the basic chords, so you can try to get what you're trying to get. Step 5: If your writing isn't going the way you wanted it to, go for a little walk or give yourself a break and then go back and try to think of some other words and put them together and see what you'll get from that. Step 7: Be creative with what you're looking for. The best songs are those that come from the heart or give yourself a challenge. Step 8: Go attend meetings, send emails, make phone calls, and update your social media accounts. Step 9: s Don't rush into signing a deal. A songwriter and a publisher, who will take 15 to 30% from any income from your songs. If you're offered one, make sure you send it to your lawyer to review before signing it. Step 10: All you need to be successful is genuine passion and obsession for your craft, achieving your goal, and the ability to make your own luck. When your fortune comes your way with an amazing opportunity, get to work and make it count.

so you can fight moonlord after you kill all the pillar the moonlord spawns in then you have to kill after you kill him you get endgame items like terraprisim.

## Astronomy

By Azul Munoz

Astronomy focuses on everything in the universe, for example; planets, satellites, meteorites, comets and galaxies. Astronomy deals with discovering the origin where these things come from and how they work. In astronomy there is astrobiology that looks for life on other planets, astrophysics that deals with the laws of physics in space. Astrometry consists of mapping of celestial bodies and astrogeology is examining what are rocks, terrains and other materials in space.

Asteroid Bennu samples would be returning to Earth, this year 2023 on September 24. This craft arrived on asteroid Bennu to collect rock samples. April 2023 Europe would be sending the Jupiter Icy Moons Explorer to study the three large ocean bearing moons. It is said that there will be a solar eclipse this year on October 14, 2023. This week there will be a conjunction of Jupiter and Venus until March 3.

Astronomers focus on finding out events that will occur in space, what is due and how it happens. Each astronomer does a specific thing that has to do with space. Astronomers have been researching asteroids that represent a danger to the earth. Just last year astronomers prevented a rogue asteroid from colliding with Earth, however it became a problem again this year. Astronomy helps us understand natural phenomena, such as the length of days, weeks, months, and years.

## Review of Minecraft Video Game

By Randy Quintero

Minecraft is a sandbox game that allows you to be creative. There are 4 game modes: creative, survival, spectator, and hardcore. There is also more than one dimension in Minecraft: the overworld, the nether, and the end.

worried. They announced that Cordova earned 1st place for the cheer and then they also announced that Cordova placed 2nd for the dance! We were all so happy! We screamed and laughed while jumping. It was the best. I was proud because we actually did it and we jumped and held the trophy up with pride.

## History of the Queen Mary

By Andrew M.

The Queen Mary was a fighter ship that served in World War II. It transported over 2 million passengers, and 810,000 members of the military. The Queen Mary in 1967 was purchased by the city of Long Beach, California. After the queen Mary was purchased it turned into a hotel, museum, and event space.

During World War II, England and France were at war with Germany. Queen Mary's days as a passenger ocean liner were over. With her record-breaking speed and size, the Queen Mary is retrofitted to serve as a troop ship during WWII. To help the US Army when the US joined the war.

Queen Mary II is much larger than the Titanic. The Queen Mary is 1,132 ft long, which is 250 ft longer than the Titanic. The Queen Mary has been around since 27 May 1936. There have been 55 reported deaths on board the Queen Mary since the ship launched in 1936.

## Face Masks

By: Jose Garcia

Face masks are used to protect you and other people from getting sick or getting other people sick. COVID -19 was declared as a pandemic in 2019 and people were required to wear face masks. To further protect people from the virus, everyone was required to wash their hands and people were advised to stay between 4 or 6 feet apart.

In 2019 masks were required everywhere for everyone. They were used to prevent the spread of the COVID-19 Virus. In other words, you could be carrying the virus in your body before you get any symptoms. It is strongly recommended that you wear a face covering when visiting any health care facility and large social gatherings.

As of today all COVID-19 restrictions were lifted including the State's mask mandate. Everyone is encouraged to get the COVID-19 vaccine.

## Sports Cars

By Johnathan Ayala

### 2018 Chevrolet Camaro Z11 1LE

The Chevrolet Camaro ZL1 walks the thin line that separates where the everyday meets the racetrack. Using the everyday Camaro (reviewed separately) as a building block, the tornado that is the ZL1 makes the mighty 455-hp Camaro LT1 and SS trims feel like comparative wind gusts. Credit the ZL1's trim-exclusive 650-hp supercharged V-8, as well as its wide Goodyear F1 SuperCar tires that are as sticky as s'mores. An available 1LE performance package awakes an even mightier beast, with the package adding even wider and stickier tires, adjustable camber plates at each corner, and Multimatic Dynamic Suspension Spool Valve dampers. Think of the camaro ZL1 as a NASCAR cup Series racer for the street.

Toyota's Halo Sports Car, the 2023 GR Supra, delivers enough excitement, style, and drama to make up for the brand's more sedate sedans, hatchbacks, and SUVs. Developed and built alongside the BMW Z4 convertible, the GR Supra offers similar build quality and simpler—but still handsome—interior materials inside. The entry-level 255-hp turbocharged four-cylinder provides ample power, but we can't help but adore the ferocious, optional 382-hp turbocharged 3.0-liter BMW inline-six that makes this two-seater fly. Rear-wheel drive is the only setup, and the GR Supra's sure-footed chassis and sharp steering enable it to come alive on twisty roads and race courses. Sure, it may borrow a little too heavily from the BMW parts bin for some Toyota fanboys, and its sweptback exterior design creates some awfully large blind spots, but even so, the GR Supra remains one of our favorite sports cars. It's a driver's car and an enthusiast's delight and it makes it a no-brainer for our annual ten best cars list.

## The Bengals

By: Jaden Zambrano Ortiz

The Cincinnati Bengals are a professional American football team based in Cincinnati. The Bengals compete in the National Football League (NFL) as a member club of the league's American Football Conference (AFC) North division. The club's home games are held in downtown Cincinnati at Paycor Stadium.

The Bengals won the AFC championship in 1981, 1988, and 2021. After the first two conference championships, they lost to the San Francisco 49ers in Super Bowls XVI and XXIII. The 1990s and the early 2000s were a period of great struggle. During that era they were occasionally referred to as "The Bungles," a term coined by Steelers broadcaster Myron

Cope, due to their struggles and poor performance.

The turning point for the Bengals was during the 2021 season, when they won their first playoff game in 31 years and advanced to Super Bowl LVI, their first appearance in the

The first dimension of Minecraft you spawn in is the overworld. The overworld is the dimension you spawn in when you first make a world. You can collect wood, stone, food, and many other materials. There are animals you can kill for food or you can plant food for more food. There are monsters in the overworld which try to kill you. There are multiple biomes in the overworld tundra, desert, forests, and more biomes. There are structures like villages, desert temples, and more structures that can help you get materials to help you in the game.

The next dimension is the nether. The nether has new materials that help you on your journey to beat the game. The nether also has new monsters that you have to defeat. You can spawn a boss with items from the nether. The final dimension of minecraft is the end. The end is the endgame of Minecraft.

The end has the final boss of the game. The player has to kill the dragon to beat the game. After you kill the dragon you can go through the portal and get the dragon's egg which allows you to respawn the dragon or you could just keep it as a trophy. Once the game is beaten you can do whatever you want, explore even more, build things, and more. You can still go back to these dimensions even after the game has been beaten.

One of the game modes you can be in is Creative mode. Creative lets you be creative because you have infinite items, you can do whatever you want with creative mode. You also can't die in creative mode so you are basically immortal. Creative gives you access to everything in Minecraft. Another game mode is survival mode.

Survival is just what it seems you have to survive you need to eat, and also you have hearts that when they hit zero you die. In survival you can respawn meaning that you won't be dead forever. There are also monsters that try to kill you as well. Survival is pretty difficult but it is not too difficult.

Another gamemode is spectator mode. Spectator mode allows you to spectate the world. You can see how the monsters see things. Spectator mode makes you not take any damage.

The final game mode is hardcore mode for Minecraft. Hardcore mode is survival but 10 times harder. Hardcore mode only allows you to have one life. Monsters are buffed and now do more damage. If you die in hardcore you only have 2 choices to delete the world or spectate the world. Minecraft has mods which add more

## Neymar Jr.

By: Alex Rosales Ibarra

Neymar da Silva Santos Junior was born February 5, 1992, known as Neymar, is a Brazilian professional footballer who plays as a forward for Ligue 1 club Paris Saint-Germain and the Brazil National Team, soon he will join Brazil.

At the age of 17 he helped the club win two successive championships. Neymar transferred to PEG in a move worth \$222 million With 77 goals in 124 matches for Brazil since debuting at age 18. Neymar is the joint-top goal scorer for his national team alongside Pele.

Neymar finished third for the FIFA Ballon d'Or in 2015 and 2017 has been awarded the FIFA Puskas Award. He was also named in the FIFA FIFPro World11 twice the UEFA.

Neymar's father, who was a former footballer, became his son's advisor as Neymar's talents began to grow. Neymar was earning 10,000 (reais) per month.

## Michael Jordan

By: Fernando

Michael Jordan is at the top of the leaderboards and record books for just about any basketball related feat, proving why he is arguably the greatest ever at his sport. He entered the National Basketball Association (NBA) in 1984 and was drafted by the Bulls as the third pick.

Jordan hit the ground running averaging 28 points his rookie year, being voted on the All-Star team. He earned Rookie of the Year honors. In his second league in the year, he broke his foot, but made it back in time for the playoffs. The Bulls played the Celtics, which according to Bleacher Report is one of the top 3 greatest teams in NBA history.

Jordan, being himself, scored 63 points in Game 2 which is a record for points in a playoff game that still stands 30 years later. He went on to win Most Valuable Player (MVP) in 1988, and again in 1991 when he also went on to win his first NBA championship. Over the next two years, Jordan would win another MVP, and two more championships. He also represented the United States by starring on the 1992 Olympic team, better known as the Dream Team, because the 12 man roster included

Super Bowl in 33 years, where they lost to the Los Angeles Rams.[21] The following season, they once again advanced to the AFC Championship Game, losing a close rematch to the Kansas City Chiefs.

## Becoming a Doctor

By: Adriana Romero

First you have to complete your undergraduate education then you have to pass the MCAT examination, apply to medical school 4 years of medical school then you do training at medical school, you have to pass the 1 and 2 of the United States medical licensing examination (USMLE) match with a residency.

graduate from medical school and start residency 3-7 years of residency pass part 3 of the United State medical licensing examination (USMLE) and finish your residency, earn board certification, get a state license, then you have to apply for jobs as a doctor.

## History of Baseball

By: Vincent Zavala Montalbo

Baseball was invented in 1839 by a guy named Abner Doubleday. The First professional baseball game was played in 1869 the Atlanta Braves vs the Cincinnati Red Stockings. The first ever World Series was in 1903 Barney Dreyfuss was the creator of the World Series and was the owner of the Pittsburgh Pirates wrote to the owner of the Boston Red Sox challenging them to a 'World's Championship Series'. The Pirates were the best team in the National League and the Red Sox were the best in the American League. In 1871, the National Association of Professional Baseball Players was established as the sport's first "major league."

Baseball started to get its popularity in the 1940s. Baseball's growing popularity in the 1940s can be measured by structural and cultural changes that helped transform the game of baseball including the building of big new ballparks, the emergence of sports pages in daily urban newspapers; and the enormous popularity of radio broadcasts of baseball games. In 1933 the very first all star game was played in Comiskey Park, in Chicago Illinois.

Baseball is one of the best sports in America because of this. Baseball makes Americans feel connected to their history genuinely. And it's not just about American history, it's about family history too. Baseball is one of the few games that most kids from all backgrounds play or used to play. It has a sense

things to the game. Mods can add new creatures, items, and dimensions. There are also texture packs that allow you to change how Minecraft looks. Data packs are like mods; they add something to the game or new features.

There are minigames inside of Minecraft like bed wars which the object is to keep your bed safe and destroy the others beds and survive. There are more games than bed wars like sky wars, snowball fights, etc.

There is multiplayer in Minecraft which allows you to play with your friends and random people. You can invite people to your server to play. You can also join public servers to play with random people. The game updates add more content to the game making it more fun. Minecraft is a great game with no mild violence and nothing inappropriate in game. It is a 10/10 for me.

## Sports Shoes

By: Amina Jones

Have you ever wondered if there's a shoe brand that can prevent you from getting injured? If you were thinking about the Runner's blueprint you were correct. These shoes will make those lazy days, the days that you'll want to get up and run. These shoes and their website is more than irrelevant.

This shoe brand website can be looked up on almost every social media platform to make your running easier. Accidents are one thing but them causing injuries is another. Accidents are going to happen even if you don't want them to while running so [runner's blueprint](#) provides you with step to step to prevent accidents from happening. They also restore some information on their page on how to treat these injuries if it were ever to happen in the future. This website will tell you how to eat while you're running because it is more than important to stay fit, especially while running. This page is very important to me and also to people who love to run. One important person who wrote all the important information and gave the article details is David Dack. David is a fitness nut, expert blogger, and an author with a solid audience!! In 2014 he found a runners blueprint blog and he turned it into one of the most trusted resources to runners on the web. Most of the people who follow his website are from the United States and will continue to because they have lots and lots of other fascinating information about running. 18 year olds all the way to 54 year olds have been following him for years and trust this website and go visit it for more and more information every day.

11 future Hall of Famers.

## The Roman Empire

By: Eleazar Ruiz

The Roman Empire was one of the most prominent examples of a great military founded in the 8th century BC. It started in a small town in Italy, close to the Tiber River. The Roman Empire was founded when Augustus Caesar proclaimed himself the first emperor of Rome in 31BC and came to an end with the fall of Constantinople in 1453CE. The empire grew in size at a fast rate throughout the Mediterranean from there the empire grew but the size of the empire was what made it fail, the political instability was too great. The time the Romans were at their peak was during the reign of Julius Caesar one of the greatest Roman Emperors. He created the most powerful military. Julius Caesar was murdered a year later, then from there Rome only rose more in power and fame. The Romans soon learned that not everything lasts forever as political instability was a detriment to the Empire. The Germans and other enemies of Rome did not help the situation. The people who were under Roman rule had enough and this led to Rome's collapse. The Empire's legacy lives on; some traits were adopted by the Catholic Church and the things they built have lasted the test of time.

## Sketching

By Ervin Bayan

When you are trying to sketch an item, person, or an animal you have to draw light so when you make a mistake, you can erase it. If you press hard with your pencil, it's likely gonna leave a mark that will stay even though you erased it. While you are drawing, you might want to use some shapes to get the body, legs, arms, or items/accessories that are needed for your choice of what type of drawing you're creating. When you finish you can finally outline the sketch and erase the sketch. Lastly, when coloring or painting you must be careful, as you are painting make sure you use masking tape so the paint doesn't bleed. Using this technique depends on your style of sketching and what you want the results of your art to be.

## Bullying

By Alphonsina Kabunga

Bully is when you have a power over someone~

Bullying is a repeated aggressive behavior where one person or group of people in a

of memory as fathers have passed it down to their sons for generations.

## Makeup

By: Perla Janeth Herrera

Multiple different brands from you to choose from like L'Oreal Paris, and Revlon love is on and other more. A lot of influencers have their own makeup brand. There's a lot of makeup brands and there's a lot of makeup products and a lot of different brands and there are thousands of shades of lipstick and many different products that vary from brand. You can choose many products, a lot of makeup brands are different products and brands. Makeup brands have ingredients for your skin type. Some people like it and other people don't like a lot of makeup.

A lot of influencers buy a lot of makeup products to review and see if it's good for their viewers. A lot of Makeup brands don't sell the same products but other makeup brands do. ## National School Social Worker Appreciation Week

By Kristel Diaz

A social worker is someone who can understand and identify with the suffering of others. They are caring, offering compassion to those in crisis. When social workers put themselves in another person's shoes and feel what they feel, they demonstrate empathy. They show that if you put your mind into it you can do anything. They show kids what's good and what's not. They are willing to do anything to help students figure things out and they show them life lessons. They help students achieve their academic goals and help them succeed, they tutor or give tips/advice to help students understand better. Without them, students would probably be behind. If it even matters because teachers are school social workers, without them students wouldn't get the education that they needed.

Our school workers have a great impact on our academic and social development. Without a doubt they are a big part of our schools. They Acknowledge students well-being without brushing off their emotional needs. They give attention towards students, they help if they're confused about anything. They help and guide you so you can have open doors in education.

We should appreciate everything that they do because without it the school system would probably crash. National School Social Worker Appreciation Week is something we should celebrate because not only do social school workers help us,

Now you know you know a lot more about this running website. Hopefully one day you'll have enough energy and strength to run like David Dack does.

## Cristiano Ronaldo

By: Max Hernandez

Cristiano Ronaldo is a soccer player, he plays for Portugal and is a great player for his team.

He moved teams to Al-Nassr FC, Saudi Arabia and became a very great player for them. By the time he moved to Al-Nassr FC it was his birthday and turned 38 years Old. Some people ask why he moved teams and why he is playing for Saudi Arabia? Many people are not happy that he is playing for Al-Nassr. But many people believe that he was a better player when he was playing for Portugal and many people say that he got better playing for Al-Nassr. Cristiano Ronaldo loves his life of luxury but not his childhood since his childhood was very hard for him because he lost his father when he was 20 years old. Jose Dinis Aveiro has died at the age of 53 years old.

Dinis Aveiro was a soldier who fought in Africa and when he returned to Portugal he started to have many problems which led to a very dysfunctional upbringing due to his fathers drinking. Cristiano admitted to not having had the best relationship with his father because of his alcoholism. In Cristianos own words he said that he never really got to know his father and was never able to have a normal conversation because of it. Even with all of his trials and tribulations, Cristiano was able to persevere and work on his goal of being a great soccer player.

## Prada

By: Trynitee Green

Prada is the most iconic brand in fashion history. The first Prada store opened in 1913 in Galleria Vittorio Emmanuele II in Milan, Italy. They sold bags, trunks, steamers, and traveling accessories. The designers behind the brand have continually striven to be innovative while maintaining their classic style. In 1919, Prada was awarded the title of Official Supplier for the Italian Royal House. This prestigious distinction gave Prada the opportunity to display the House of Savoy Coat of Arms and knotted rope designed in its trademark logo. This honor is what makes Prada a symbol of Italian society. The history of Prada gets even more

position of power deliberately intimidates another person. Please don't be a bully, it's a losing situation for both the bully and the person that is being bullied.

Bullying comes with the intention to hurt a person physically or emotionally. Acts of bullying can be physical or verbal. Many young people can be unkind to each other. Adolescents are refining social skills and grow into healthy mature adults. While these interactions are unpleasant, there is a clear line between conflict and bullying.

## Cuco

By: Saray Davalos

Cuco, also known as Omar Banos, is a Mexican-American singer, songwriter, and instrumentalist. He was born on June 26, 1998 in Inglewood, Los Angeles, California. As of right now he is 24. He dropped out of college to focus on his music career and even learned to play many different instruments.

Eventually, he released the songs 'Yeah,' 'Swear on a Soul,' and 'Mindwinder.' Later he gained more popularity on SoundCloud with his account 'trappedindeathstar.' His mixtape, 'Wannabewithu,' became very popular, particularly with young Latinos, and guided him to fame. His second mixtape, 'Songs4u,' and his EP 'Chiquito,' also helped him become popular.

Cuco was in sold-out live shows, and made his first bilingual song, 'Lo Que Siento' which became extremely popular as well. He even earned co-signs from Kevin Abstract and Steve Lacey. Cuco can also be found on Twitter, Instagram, and YouTube.

## FIFA World Cup

By: Bernardo DeLeon

The international FIFA World Cup held in Qatar was undoubtedly one of the most breathtaking world cups due to all the incredible goals scored by the teams. From across the globe from Serbia to Argentina the teams competed for the World Cup Trophy. Groundbreaking number of fans in the stadiums built in Qatar from players like Mbappe and Messi being the hero's and carrying their teams to finals. To ronaldo not completing his dream of winning the World Cup to youngsters playing in their first World Cup and getting prepared for the

2026 World Cup. Even after the World Cup had happened Messi was renowned the hero of Argentina but like Messi had said he would have liked maradona to hand him the World Cup trophy but unlike Messi other players like Ronaldo, Neymar jr, lewandowski, luka Modric. And failed to win the World Cup and get emotional because that may have been their last World Cup before retirement. The World Cup was held in Qatar and the finals of the World Cup was held in Lusaka stadium in Qatar and the national team of Qatar when they

they teach us how to make differences, they help kids form the future! So that's why I think that's why we should celebrate National School Social Worker Appreciation Week!

## Kobe Bryant

By Jesus Colin Soto

Kobe Bryant and Shaquille O'Neal won 3 consecutive NBA titles in Los Angeles. Lakers. Kobe Bryant and Shaquille O'Neal were on the Los Angeles Lakers from 1996 to 2004 till Shaquille left the Lakers to join the Miami Heat. Kobe Bryant and Shaq won a championship in the years 2000, 2001, 2002 against the Indiana Pacers. In the year 2001 it was the Philadelphia 76ers in the year 2002 it was the New Jersey Nets.

## Nissan Skyline GT-R 34

By: Hazel Denogean

The R34 Skyline GT-R was introduced in 1998. It was available from 1998 to around 2002. You can legally bring a Skyline GT-R R34 into the United States and use it as a race car or drag car. It can also be owned as a show car. But it is not street legal, while its twin-turbo I6 engine produced impressive horsepower.

In other words the GT-R34 is a pretty fast car 165mph (claimed). While in horsepower 400HP. The Nissan was a pretty fast car that's one of the reasons it's not street legal. An extremely rare Nissan Skyline R34 GT-R with zero kilometers on its odometer. GTRs can have price tags as high as \$70,000.

In conclusion the Nissan Skyline GT-R 34 is truly a beautiful car. It may not be cheap, but it's well worth the price. It's fast, the max speed is 195 mph, while it weighs 1,560kg. There's also different colors but the rarest color is pearl white. The car doesn't have a seat belt, instead it has a harness. The reason for this is because this car is a race car.

## Dog Breeds

By: Julia Trevino

German Shepherds will explore everything with their noses. GSDs are incredibly smart. German Shepherd Dogs are protective of their loved ones. GSDs provide constant companionship. German Shepherds are known as a mouthy breed. Generally considered dogkind's finest all-purpose worker, the German Shepherd Dog is a large, agile, muscular dog of noble character and high intelligence. Loyal, confident, courageous, and steady, the German Shepherd is truly a dog lover's delight.

The term pitbull has an unfortunate origin. The term pitbull includes several different breeds of dogs. Many people call mixed-breed dogs pitbulls. Pitbulls start out with wrinkled foreheads. Pitbulls have a powerful bite.

First, a little backstory and clarification for those who aren't completely familiar with what "pit bulls" actually are. Pit bulls are not one specific breed, but rather a classification of several breeds (Staffordshire terriers, American pit bull terriers, American bullies, American Staffordshire terriers, and sometimes American bulldogs and bull terriers).

## Women's National Basketball Association (WNBA)

By Samantha Salas

The WNBA stands for Women's National Basketball Association which is a basketball league made for women. It's very similar to the NBA but with its very own unique

interesting. Mario Prada didn't believe that women should work outside of home, he excluded his female family members from working at his company. Ironically his only son wasn't interested in the family business. His daughter Luisa Prada took over the family business and ran it for almost twenty years. In the mid-1970s, Luisa's daughter Miuccia Prada joined her mother in the family business. Miuccia instantly devoted herself to designing accessories. In 1977 Miuccia Prada met Patrizio Bertelli, a young Italian with his own leather business. The global success of the Prada brand opened doors for Miuccia Prada and Patrizio Bertelli in new directions and a women's wear line was introduced in the late 80s. In conclusion Miuccia Prada and Patrizio Bertelli business expanded over the years to become an iconic name brand of clothing and accessories.

## How to Become an Author

By: Giselle Castro

Before we start just know an author has probably walked in your shoes. You need to develop a writing habit because it's the best way to start to unlock the full potential of your creativity. Find people who want to be writers and are at the same point in their writing career as you. Try to meet up regularly to read each other's work and give one another feedback. You can read to yourself out loud and see if it makes sense to you also. No matter what anyone says, keep writing. Don't take a day off, you need to at least write once a day, and don't be lazy about it. If you really want to become an author of a book, you should read a book to give you an idea on what to write about and how to write it. Do not ever copy someone else's work, that is called plagiarism. Writers offer people a glimpse into their own lives, and help them live better stories. Being an author can make you good money. To become an author, there is no formal educational requirement, but at least, a high school degree is recommended. Becoming an author mainly requires that you have a strong set of skills, like the ability to read and write well. It's hard to become an author but follow my steps and that is how you become the next J.K. Rowling.

## Chutti The Rhino

By Vivianne

Chutti is a new member of the Phoenix Zoo. He's not just a normal giant rhino he's a One horned Rhinoceros. Did you know Chutti the rhino came from the Fresno Chaffee Zoo all the way to here in the Phoenix Zoo! According to Google maps it takes about 9 hrs and 12 min to the Fresno zoo all the way to the phoenix zoo.

played the audience was leaving in the middle of the game so the stadium was half empty in the 70th. Minute although it was Qatar first time having a World Cup taking place they did well with the stadium's and People came to visit Qatar as a tourist attraction because of the history that was made.

## **Mental Health**

By Ruby Trevino

Why is mental health important? How does it affect us? Mental health includes our emotional, psychological, and social well-being. It affects how we think, feel, and act. Mental health can also affect the way you handle things like stress, relating to others, and making decisions. Proper mental health is essential in every stage of life from childhood, teen years and to adulthood. Throughout a lifetime, a person can experience mental health issues at any point. This affects not only their mood and behavior but also changes their way of thinking, of looking at life and facing challenges. Taking care of your mental health not only involves getting help from professionals when needed but also connecting with others, getting involved in physical activities, helping others, getting enough sleep and staying positive that there is a way out. Positive mental health allows people to realize their full potential, deal with stress in life, and work productively. Various factors in people's lives such as intrapersonal relations, physical factors, childhood trauma and many other conditions can disrupt mental health conditions. Taking care and looking after one's mental health can keep a person's ability to enjoy life.

features. It involves 144 players each in their own 12 teams and with its regular season played from May to September and an All Star game also in July.

Though the WNBA may not be as popular as the NBA, it still consists of many interesting, suspense filled games. The players are the most important part of this league, making the WNBA the WNBA. Each player there makes the sport unique and compelling in its very own way. Some examples of famous, most beloved players are Brittney Griner and Sue Bird, Diana Taurasi, Breanna Stewart, plus many more. Taurasi though considered to be the best with her ranks as #1 in offensive greatness, durability, and longevity. She's been among the top performers earning All-WNBA honors in 2004 and has also won 3 titles, league MVP (2009), two-time Finals MVP and a ten-time All-Star.

In conclusion the WNBA is a very distinctive and interesting league that deserves more love and recognition for its unique spirit. The next game will be May 19, 2023 so tune in to watch with Sun against Fever. Don't forget!

In the picture you see Chutti the rhino fun fact rhinoceros Have eyes located on opposite sides of the head, rhinos don't have good binocular vision like humans and other primates do, and also lack color vision.but that sure isn't stopping them from having a good time at a zoo and getting fed! Right? Rhinos make an array of funny noises when they're communicating. During confrontations, they growl and make 'trumpet calls'. Black rhinos snort when they're angry, make sneeze-like calls as alarms, scream if they're scared and 'monk' when relaxed. Rhinos also communicate through their poop and urine. When rhino poop in the same place as other rhinos – an area known as a latrine – they can smell the poo and urine of other individuals, and know who's in the area
